

PROGRAM EFFECTIVENESS DATA

***Note----Graduate surveys are typically disseminated to the graduates after the completion of the Exit Exam.

Five-year success rate on the American Registry of Radiologic Technologist (ARRT) National Board examination in Radiography. The program benchmark: Five Year average pass rate of 75 percent on a graduates' 1st attempt.

Year	Percent passing on 1 st attempt	Number of students
2013	87%	13 of 15 students passed on 1 st attempt
2014	75%	12 of 16 students passed on 1 st attempt
2015	69%	11 of 16 students passed on 1 st attempt
2016	100	17 of 17 students passed on 1 st attempt
2017	100%	11 of 11 students passed on the 1 st attempt
Five-year average	86%	64 of 75 graduates passed on 1st attempt.
<i>74 of 75 graduates (99%) passed the ARRT exam on first/repeated attempts</i>		

Five-year average job placement rate for graduates should be at or greater than 75 percent within twelve months of graduation.

Year	Percent job placement	Number of students
2013	100% employed in twelve(12) months	10 graduates were actively seeking employment. 10 out of 10 were employed within twelve (12) months of graduation
2014	100% employed in twelve(12) months	16 graduates were actively seeking employment. 16 out of 16 were employed within twelve (12) months of graduation.
2015	100% employed in twelve(12) months	13 graduates were actively seeking employment. 13 graduates were employed within twelve (12) months of graduation.
2016	94% employed in twelve(12) months	16 graduates were actively seeking employment. 15 graduates were employed within twelve (12) months of graduation.
2017	100% employed in twelve(12) months	11 graduates were actively seeking employment. 11 graduates were employed within twelve (12) months of graduation
5-year average	99% of graduates actively seeking employment were hired within the first year of graduation	66 graduates were actively seeking employment. 65 SUSLA graduates entered the workforce as registered Radiologic Technology within one-year postgraduates

Program Completion Rate

Program completion rate is defined as the number of students who complete the clinical phase of the program within 150% of the program length. The program length for the clinical phase of the program is 27 months, and Program completion rate is defined as those students graduating within 150% of beginning the clinical phase of the program.

Year	Percent completion	Number of students
2013	59%	27 began 16 graduated <ul style="list-style-type: none"> • 2 voluntary withdrawal • 9 dismissed for academic reasons
2014	61%	28 began 17 graduated <ul style="list-style-type: none"> • 2 will complete the program in 2015 • 2 voluntary withdrawal • 7 dismissed for academic reasons
2015	61%	23 began 14 graduated from the original cohort <ul style="list-style-type: none"> • 1 will complete the program in 2016 • 1 voluntary withdrawal • 8 dismissed for academic reasons
2016	63%	24 began 15 graduated from the original cohort <ul style="list-style-type: none"> • 1 will complete the program in 2017 • 6 dismissed for academic reasons • 1 withdrew
2017	48%	25 began 12 graduated from the original cohort <ul style="list-style-type: none"> • 3 students completed the program in 2018 • 9 dismissed for academic reasons • 1 withdrew
5-year average	62 %
