- major advisors should get close to their students upon knowing what's needed for graduation.
- make classes available every semester
- more attention to student hours, if we are taking classes and have earned enough hours to graduate with a degree it should be made known to the students.... the students really have not direction here, very little assistance from student advisors, I mean do we have those here? and do they follow the students academics? More assistance with financial aid options, scholarships, grants etc.. very well hidden

11. Comments

^{11.1)} Please provide any additional comments:

- I am grateful for the opportunity I was afforded her at Susla
- I was only here for one semester during the summer to take my math classes to get my degree. I was one of the most disorganized and frustrating experiences of my life. The is a school, but a business also, and the business aspect was NOT good at all. It things had been more professional, maybe I would return to SUSLA, but it was not. I think it would be very frustrating for a young person right out of high school.
- As I go on I hope that the school continue to build up beautiful black leaders like I will soon be some day.
- Ecstatic about being an Alumni
- Excellent Criminal Justice program
- Get a new person to be over Rad-tech . if u can get a whole new crew cause they are all very nasty and don't care about students just there pay check
- I am a single parent and I do not qualify for financial aid. I have experienced difficulty paying for school each semester and the only assistance that I was able to receive was from the Chancellors Office, which I am very grateful for. With that being said, I feel there should be other financial options that people like myself should be able to have access too. Right now, I can not graduate because I don't have the funds to pay the rest of my tuition.
- I am very satisfied with the overall program here at SUSLA and I highly recommend this institution to other interested persons.
- I enjoyed my time here at SUSLA. I hope to give back to this college if I ever manage to have my dream career. The teachers and friendly environment was nice overall!
- I feel that administration should be better organized and accessible.
- I had a good learning experience.
- I had a very informative educational experience.
- I have enjoyed being a student here at SUSLA. I am grateful for this great University
- I learned a lot at susla and plan on using that knowledge to help others as well.
- I learned alot from southern
- I loved it
- I loved susla
- I must say I am a proud jaguar. I can say attending susla was the best decision I made .
- I really enjoyed my time here at SUSLA. I will be recommending SUSLA to others.
- I truly enjoyed my learning experience at SUSLA.
- I would like to see SUSLA step up for their professors more. I've have several classes with very rude students, and they disrespect the teachers this has to stop.
- I've enjoyed my two years on this campus.
- Include a spring completion class in nursing
- My learning experience with SUSLA was a great experience. I have become a better person after learning at SUSLA.
- My overall SUSLA experience was amazing
- N/A (4 Counts)
- N/a
- Needs to be more organized (2 Counts)
- None (2 Counts)
- Nursing school needs to revamp the whole program. Too much relies on Hesi score and the teaching is not up to par.

- Offer classes more frequent and on moodle.
- Our facilities were horrible, the building leaked constantly. Our x-ray lab was horrible and needs to be upgraded.
- Patricia Brown is AWESOME..... such a blessing....
- Provide financial aid for students that are not from here.
- Registration is the start of your journey. If the registration process was more organized, the process would be so much better.
- SUSLA campus is great, I just think the Faculty and Staff members lack a lot of communications or they aren't as active with one another to make the institution a whole!
- SUSLA was A good first start for me. They made me feel as if what I wanted was also important for to them. So it was easier for me to achieve my goal of completing this program. I'm glad that I chose SUSLA.....
- Some instructors shouldn't be here
- Southern is a great school . would appreciate if organization would get better. Other then that i love this school (2 Counts)
- Susla has really prepared me to be the best candidate in whatever field I will be continuing my education in and I really appreciate that. (2 Counts)
- The enrollment process could be smoother and the financial aid department needs to be organized and vocal with the students. Other than that the experience was a good one.
- The only thing that I would alter would be Financial Aid. The process is/was very frustrating. The amount of time until the funds were/are dispersed is too much. For the people who actually use and need that money to live on, it is unacceptable. Other institutions disperse much sooner!
- The program I was involved in exceeded my expectations. The staff involved are extremely knowledgeable in their field and are ready and willing to assist you in any facet you need regarding your education and opportunities after you graduate.
- The school need more organization in all areas. (2 Counts)
- This could be a great school if everyone showed they cared
- This has truly been an experience for me. But I have learned so much from my experience. I am proud to be SUSLA alumni.
- This school has been a great experience for me since my first year. And I just want to say to all of SUSLA's staff members that they are doing an excellent job and also keep up the good teaching.
- Very helpful instructor's
- We need much more parking place on metro campus.
- Your administrative staff needs some customer service training (financial ai, scholarships, CAAP testing). The campus needs work not another addition.
- do better
- great experince
- keep it up
- my worst experince with school. I wouldn't recommend anyone to attend, especially if I cared about them. This school needs lot of work. I cant count on 1 hand how many positive encounters, I've had here.
- n/a (9 Counts)

- some instructors could do better with attending and honestly teaching
- students should be talked to more about their study
- the instructors in the radiology program in at the susla metro need to show more compassion to their students
- the only problem I had was with my face to face math class. instructor was not helpful or encouraging

- the overall experience has been great
- there are a lot of areas for improvement: IT Dept., Graduation application help
