TRiO'S DUAL ENROLLMENT PROGRAM HOSTS ORIENTATION BY WELCOMING STUDENTS AND PARENTS TO THE JAGUAR ACADEMY

Jaguar Academy allows for our TRiO participants to receive a collegiate jump-start while in high school. Too often, because our participants are not afforded an opportunity to earn college credit while in high school, the academic achievement gap is widening. Jaguar Academy, however, ensures our participants are provided an equitable academic pre-collegiate experience while in high school. "Participation in Jaguar Academy aligns academic content with cultural exposure to eliminate the academic barriers often faced by TRiO participants," says Danielle Anderson, TRiO Dual Enrollment Chair.

The Jaguar Academy orientation held on May 5, 2022, welcomed TRiO participants and parents to SUSLA from five different Northwest Louisiana parishes. During the orientation, participants and parents were introduced to their Summer 2022 instructors and courses. For TRiO participants, Jaguar Academy also has an aim to ease the transition from high school to college. The academic rigors and non-cognitive skills gained as a Jaguar Academy participant provide meaningful academic experiences, free of charge. Jaguar Academy participants are exposed to the SUSLA environment, including SUSLA student services such as the library, and computer labs. All TRiO participants are encouraged to take advantage of this unique opportunity with Southern University Shreveport.

“Although academia is our focus, we are preparing multicultural young adults for college entrance. SUSLA’S CENTER FOR STUDENT SUCCESS & OFFICE OF E-LEARNING USES ACCUDEMIA TO ENHANCE STUDENT ENGAGEMENT & EFFICIENCY

Accudemia is a cloud-based academic center management system that allows administrators and educators to track and manage student interaction, improving daily operations, and streamline record keeping and record sharing.

It has an easy-to-use interface through which administrators and students can schedule appointments online and even provide feedback about their experience. In addition to the product itself, Accudemia comes with excellent support provided via phone, email, and live online meetings.

The Accudemia platform was introduced to SUSLA through Mr. Willie Siglar II and the Center for Student Success and is now being used by both the Office of E-Learning and the SUSLA Connect program.

Each of these departments currently using Accudemia have seen the benefits primarily in the areas:

- [Scheduling Students with Appointments](#)
- [Versatile Meeting Spaces](#)
- [Activity Logs](#)
- [Student Contact](#)

While the full scope of Accudemia still leaves much room for us to explore and expand, it has already proven to be a useful tool for enhancing student engagement and efficiency.
