

AALT Louisiana Transfer Criminal Justice

Description of the program (Undergraduate, graduate, or certification)

The transfer associate is a degree offered by a two-year or community college as an interim step to the bachelor's degree. It allows you to complete the first 60 hours of college work toward a 4-year degree while you attend the two-year or community college. This 60-hour degree is designed to give you the foundation to succeed in the baccalaureate and to help you make wise choices about the majors that are best for you.
