

IMPORTANT STUDENT INFORMATION FOR THE
NACE I: FOUNDATIONS IN NURSING (NACE)
AND
PRE-ADMISSION (PAX) EXAMS

- The *NACE I: Foundations in Nursing* Exam is a test of basic nursing knowledge designed for students who are already Licensed Practical Nurses who are applying for the LPN-RN program.
- The *Pre-Admission Exam* is a math, English, and science test and is designed for traditional/generic students.
- The NACE and PAX exams can only be taken **once** within a 6-month period (Even if the testing website allows you to register for the exam again).
- If either exam is taken more than once within 6 months, the second exam score will be invalid.
- If you would like to purchase practice materials to help you prepare for your exam, you can do so by logging in to the new testing portal for the National League for Nursing (NLN): www.nlnest.org. If you tested in the spring, this is the site you used. You can enter your username (email) and password to log in. If you are a new tester, you will need to create an account. In creating a new account, please make sure to list Southern University at Shreveport as your home school (See NLN Student Guide for instructions).
- Both the NACE and the PAX can be taken remotely from any computer with a camera, microphone, and a strong internet connection. If you choose to take the exam remotely, **do not** pay for the exam at SUSLA. You will pay for the exam with a credit or debit card at the time of purchase (Please see links below for directions for ordering your remote exam).
